

Assessment Scenario Path 1 Selection 2 Video

Angela: So what does that card say about your family meals?

Liz: We go back and forth with each other about which foods Xavier's gonna eat. You know, like a tug-of-war, how you go back and forth?

Angela: You and Xavier go back and forth about his food choices. Can you tell me more about that?

Liz: Yeah. For instance, I'll tell him to eat some vegetables and he'll say, "Oh, I'll eat just one bite."

Angela: So he doesn't eat many vegetables. Does he drink milk or juice?

Liz: Yeah, he does. About two cups a day, 1% milk, and a cup of apple juice, but no soda.

Angela: No soda? That's great. And do you give him any vitamins?

Liz: No, no vitamins.

Angela: Okay, no vitamins. And are there any concerns you have about Xavier's eating habits?

Liz: Not really. He's doing fine.
