

## **Assessment Scenario Path 2 Selection 2 Video**

Angela: Can you tell me something about meals with your family?

Liz: It's not too bad but we go back and forth with each other about which foods-- Xavier's gonna eat.

Angela: You and Xavier go back and forth about his food choices. Can you tell me more about that?

Liz: Yeah, for instance, I'll tell him to eat some vegetables. And he'll say, "Oh, I'll eat-- I'll just eat one bite."

Angela: So he doesn't eat many vegetables. Is he picky about his foods?

Liz: No, not really. He likes most foods.

Angela: Does he drink milk or juice?

Liz: Yeah, he does. He drinks both.

Angela: That's great. How much of each?

Liz: About two cups of 1% milk and a cup of apple juice.

Angela: Okay. Just a few more questions.
